**The Human Side of the Steel Strike by Ralph Allen**

## HAVE YOU ANY RUPEES IN YOUR PURSE?

Not. But he has been talking for months about buying a real Indian dress, but wouldn't she be surprised if she found it priced to represent that it isn't, is also a large measure of the services rendered by your bank.

• • •

When you buy imported goods in Canadian stores, you pay in Canadian dollars—but the people who made them were paid in Indian rupees, British pounds, French francs...

It is the same in reverse with exports. You may be one of the three out of every eight Canadians who make their living through goods sold abroad. If so, you receive your wages in dollars, but your products are sold in all sorts of foreign currencies.

Arranging the complicated exchange and transfer of foreign funds in such transactions is but one of your bank's many services enabling Canadians to buy and sell abroad.

## "I Left My Wife Crying"

By RALPH ALLEN

TWO MONTHS before the strike started in the Hamilton works of the Great Canadian Paper Co., George Wadsworth and his wife had been employed for years as a team, and he was already a member. The Wadsworths agreed the 11 p.m. to 7 a.m. shift would be their last before the strike.

"I haven't seen her since," Mrs. Wadsworth said, nearly two months later. "She phoned me on the Sunday from the plant and said, 'I'm staying in. That night I took the three kids down to the Milton girls and we marched on the picket line. I've been getting my husband ever since. I can't understand it. He was so strong for the women and this... I don't know what will do when it's over.'"

By the third week of the strike Tony Brown, a striking labourer, applied for union relief and began finding his wife and five small children on \$1.15 a day. Inside the plant an impression of Tony Brown, a head taller than Harry Maguire,

was drawing wages of \$2.25 a day for six days a week. During the last week of the strike the Browns flew across the picket line to get normal. The day he tried to work back up, he three months later in the public line. "Get the work" he was pulled.

"A mob of pickets started after me," Brown said afterward. "I ran."

For the purpose of history the Hamilton steel strike began moving toward a settlement late last month, when both union and Government negotiations expressed confidence that the 4,500 employees who had been on strike would soon be back to work. The strike had lasted the 120th day before workers they had held in a state of siege for more than two months.

But, according to the two big news stories, the Hamilton strike was the most unusual, controversial and potentially violent labor dispute in Canadian history. Not for the Wadsworths, the Browns, the Maguire and the Brown, it was a battle for the years' prestige for decades. In its effort to win the war when other steel in Hamilton, on the west side, took their families and on the children growing up to be strikers. Continued on page 2
